Notes: (1) All Dimensions are in inches. (2)  $L_T$  is the nominal threaded bolt length. For common nominal sizes, full thread studs are typically stocked in 1/8" increments up to 1" long, in 1/4" increments from 1" to 6" long & in 1/2" increments from 6" to 10" long. (3)  $U_{max} = 2P$  where P equals thread pitch.
